## David Hurrell

At this time last year the trustees were considering changes to the Constitution to make it easier to create 'Improvements' for the footpath network.

The trustees have had a look at a few schemes and have decided to improve a Staffordshire footpath at Hulme End, close to where the path crosses the River Manifold and enters Derbyshire. Unfortunately, at around the same time, Staffordshire closed the path because of the deterioration of the wooden bridge over the river. Work to rectify the bridge is expected to be completed this spring, but currently Staffordshire CC use the contractor Amey for footpath works, and many tasks allocated to them have been long delayed. Peak and Northern Footpaths Society informed Staffordshire that work should not be carried out whilst the path was not open for public use. We hope that our first task under our extended powers will not be delayed too long.

Work has continued throughout the year on the footpath inspectors' database. Almost all the local authority areas are now on the database, and my thanks go to Roger Fielding, David Gosling and Mel Bale for the many hours of work they have put into this venture. Most of our footpath inspectors now use the database and find it to be very informative. We now have a detailed record to access on our computers of all the history of the particular paths. For those of you still not using the system, do please try it. It will help you a great deal to understand your footpath network. We hope that the information will be made available to all members to review the paths they find themselves walking on.

At a recent management meeting, the trustees made the decision to hold the next half-year meeting in November on the east side of the Pennines. We are currently looking for a suitable venue in Sheffield, which should be easy to access from west of the Pennines. We need to find somewhere which has adequate parking and can be accessed from the station, by tram if possible, with suitable facilities for a hot or cold lunch.

With our Society being more involved in the larger community, we are on the lookout for a press officer. This is not a post that would require walking around footpaths, but writing about the work of the Society and being able to have the articles published in the local press. It could be an opportunity for a member who may be unable to do other things out in the open, and would be a rewarding job for someone who is good at writing.

We shall soon be requiring a new courts and inquiries officer to work as part of the existing team on the more 'legal' side of the Peak & Northern work. There are currently people within PNFS who have a wealth of experience. Professional training will be given to someone wishing to take on the position. Please contact one of the Courts and Inquiries Officers members or one of the trustees for more details.

Ruth Waites has continued finding ways to publicise our work.

Contacts have been made with some universities and educational facilities. We hope that this will bring some younger members into the Society.

Peak & Northern Footpaths Society has received details of the extension to HS2 from Birmingham to both the west and east of the Pennines to reach Manchester in the west and Leeds in the east. There are not too many problems on the west side, as the line will be in tunnels from Manchester Airport to Manchester Piccadilly, but there is much to look at on the east side, where many footpaths have been diverted some distance to cross the railway on new road bridges. The good news is that not many paths have been proposed for closure, but diversions are long in a number of cases. HS2 does not wish to discuss their plans with small groups like PNFS, so we are having to work through local access forums. Still better than no contact at all.

We are now well into 2019, and one of things we must do is seek equality in how we function. With this in mind, the trustees are looking for another lady trustee to balance the male imbalance that we currently have. If you feel you could serve in this position, please see one of the trustees, who will be able to help explain some of the responsibilities involved. In-house training will be provided if required.

We welcome this year a new editor of Signpost, Shirley Addey. By the time you read this, she will have published her first edition and I am sure it will be a little different with a new editor. We hope that she will make her mark as lady editor.

As chairman I am very grateful for the many expert people we have working within the Society. Without these many dedicated people the Society would not be able to function as efficiently as it does. There are many people working away from the spotlight that we are so dependent on that it is hard to see how we could continue without them.

My thanks too, to our President who, although he does not have an official position and does not attend meetings, does keep his eye on how we are functioning and will offer suggestions as to how we should proceed, should we ask.

The trustees are currently looking at appointing some additional vice presidents, and when the AGM comes along we are hopeful of being able to put names to the meeting for approval.

## Terry Norris (Western)

As last year, my work has been dominated by claims for Definitive Map Modification Orders, which have been applied for on the basis of 20 years' use of the route, as of right, as a public footpath. The background to all the cases is similar. A new landowner discovers that a well-used path on their land is not recorded as a definitive path and closes it off with barriers and signs warning that the land is private. This is often accompanied by aggressive and offensive behaviour. Highway authorities have cut the number of staff devoted to rights of way, causing great delays in processing these claims.

None of these cases has yet reached the final stage, i.e. the Order confirmed and the path added to the Definitive Map. The case nearest this stage is that of Silverdale 14 in Lancashire. The Society first became involved in 1994 when walkers were denied access to the western approach to the path above the sea wall at Browns Houses. A claim was made to add this path to the Definitive Map. That map showed the path passing through the sea wall and onto the foreshore, a drafting error which was inconsistent with the Definitive Statement. Despite the public rights of way officer recommending that the Order be made, the claim was rejected by councillors. We successfully appealed to the Secretary of State, whose planning inspector directed the Council to make the Order. This was done in 2013 and attracted strong opposition from the owners of Browns Houses. After a delay of five years the Order was referred to the Planning Inspectorate for confirmation. This resulted in a public inquiry at Carnforth Civic Hall lasting four days. David Goode, the public rights of way manager did a magnificent job in collating and presenting a huge body of evidence which supported our claim that the route at issue is a long-established public path on foot. We now await the final decision.

I have worked with a number of residents from Leigh near Wigan to press the Council to make Orders to add the path from Sandy Pool Farm ending at the East Lancs Road to the Definitive Map. This route is greatly valued as a countryside walk and has been used by successive generations. The Council eventually made the appropriate Definitive Map Modification Orders, which attracted vociferous objections from landowners. The ward councillor has been very supportive of the residents but two other councillors have objected to the Orders, albeit on legally irrelevant grounds, i.e. that use of the path would adversely impact on agricultural activities. However, this conflict of opinion amongst councillors has been used as a reason for the Council remaining neutral in the matter, leaving the Society to present the case at the public inquiry which will be held to consider whether the Orders should be confirmed. The landowners opposing the Orders are being represented by lawyers appointed by the NFU who are specialists in this type of case. The trustees have agreed that the Society should also be legally represented and a barrister experienced in dealing with DMOs has been instructed. I am very pleased to acknowledge the great assistance given by Rhoda Barnett and Jenny Allen in preparing the case. Wigan Council has forwarded the Orders to the Planning Inspectorate, who decided that they were invalid as they failed to comply with the appropriate regulations. The Orders have now been redrafted and advertised. It is anticipated that these Orders will be opposed as before.

Another DMMO is outstanding in Kirklees. This relates to a path at Clough Mills in Marsden. The Council accepted the Society's application but it has been objected to by the developers of 'executive housing' which is to be built on the site of the mill. This is a lovely water-side path used by local families and visitors for decades. A plea to the developer to see the path as a great recreational asset to those who will live in the houses fell on deaf ears.

Another application in Leigh at Hall House Lane has been rejected by the Council and an appeal lodged with the Planning Inspectorate.

Careful examination of a 25,000 OS map will often reveal well-used paths not recorded as definitive paths. They need investigating and claiming to safeguard them for walkers in the future. Hopefully my work in the last year has made a small contribution to this important task.

## **Martin Hampar (Trafford)**

As in previous years, my work on behalf of the Society during the year has been divided between attention to issues in my home borough of Trafford, Greater Manchester and a number of more general activities.

The Borough of Trafford covers both urban and rural areas with a range of residential, industrial and agricultural uses. It has a network of some 250 recorded public rights of way, ranging from short ginnels to paths across open fields. I am continuing to work with Ramblers Trafford Group to identify and try to resolve some long-standing footpath obstructions. This year we have successfully secured the re-opening of Carrington 1 for walkers after serving formal notice on the Council.

I have continued working with Ramblers to get Trafford to update their Definitive Map and Statement which is increasingly out of date, and to update their electronic dataset of public rights of way, which is incomplete and, in places, inaccurate.

Carrington Moss is a large area of open, mainly agricultural, land within Trafford that has had many decades of uninterrupted access by the public but has few recorded public rights of way. On behalf of the Society I am continuing to work with the Friends of Carrington Moss to identify users of the area and claim additional rights of way.

I am supporting the Society's inspector in Oldham regarding the clearance of obstructed footpaths. I am working with the Ramblers Footpaths Officer in Salford in connection with both the obstruction of footpaths and proposed changes to the network. Where appropriate, I have commented on Orders proposing changes to the rights of way network and on specific planning applications that appear to affect public rights of way in Trafford, Manchester and Salford.

Planning for the high-speed railway HS2 in the Society's area reached the stage of identifying the effect the plans would have on public rights of way. The Working Draft Environmental Impact Assessment for Phase 2b, completing the lines to Manchester and to Sheffield and Leeds, was published during the year and I submitted a response on behalf of the Society in respect of those rights of way affected in Greater Manchester (specifically in Manchester, Trafford and Wigan). The Greater Manchester Authority is planning a new 'Greater Manchester Spatial Framework', which will inform the consideration of planning applications and may affect public access to open spaces and rights of way. I continue to monitor high-level plans produced by the Greater Manchester Authority and the various constituent districts, and where appropriate respond on behalf of the Society.

## Harry Scott (Staffordshire and Stoke on Trent)

We identified 1301 footpaths missing from the Stoke-on-Trent definitive map a few years ago with help of the Ramblers. 900 paths were on Stoke City Council land and it was agreed by the City Council that the paths could go on the map. However, during 2018 only two paths went on the map, the problem being officer time and the legal costs. I continue to campaign on this issue, and during 2019 I will be running an email monthly campaign. Why the urgency? you may well ask. Paths are being lost due to development, and their connection into the wider footpath network in Staffordshire will be lost.

Staffordshire County Council Rights of Way had a 40% cut to its finances during 2018/19, affecting their ability to purchase materials, gates, stiles, fencing etc. Cuts will continue in 2019/20 with a 40% cut in staffing during 2019/20. A major change for the Rights of Way Office at Staffordshire County Council has been the contracting out of footpath diversion consultations. These are now carried out by an external contractor. We received 16 diversion consultations in 2018 and only one was objected to: Kingstone, with the closure of footpaths 20 and 11 East Staffordshire at Dowry Farm. Orders are still produced by the County Council.

I continue to monitor planning applications which may affect a footpath, having received around 170 applications during 2018. It is surprising how many applications involve a footpath that has not been taken into consideration, or is being ignored. I was able over the year to point out the paths affected and sometimes place objections to the applications.

This is an opportunity to thank our footpath inspectors who have pointed out long-term problems to me. I have taken these up with Staffordshire County Council and can report the issues have been resolved. It is taking around 12 months to resolve footpath problems due to the above cuts. However, I continue to have face-to-face meetings with the County Council, which help to resolve footpath problems. I continue as a member of the Staffordshire Local Access Forum, which is an opportunity to meet landowners and other user groups.

## Rhoda Barnett (Derbyshire)

As usual my two roles of Courts and Inquiries Officer and Area Officer overlapped, and I find it impossible to separate the two, although in practice this does not really matter. One of the most interesting parts of my work for the Society continued to be giving advice on the law and practice of public rights of way (PRoW) management to many members, especially our wonderful inspectors.

More routine work involved attempting to persuade the county council to resolve obstruction and surfacing problems on PRoW. Some council officers were very effective, in spite of the continuing lack of resources, but others needed the warning that legal notices would be served on the council or the actual service of such notices before faults were remedied. I also continued to assess how applications for planning permission for developments might affect PRoW – I looked at 170 such applications during the year, and for the majority it was sufficient to ensure that the applicants knew the location of footpaths and other PRoW and that these must be protected during and after the development. I needed to object outright to only a few applications, and these objections resulted in amended plans being submitted, or conditions being placed on the planning permission so that the affected paths would be diverted.

Another aspect of my work was to look at all diversion proposals, whether connected with developments or made for other reasons, to ensure that the legal tests would be met. There is no requirement that walkers should benefit from diversions, but neither must they be substantially inconvenienced. I responded to 14 diversion consultations, helped by the PNFS Inspector where there was one for the area, and my comments generally resulted in improvements for walkers. Unfortunately some of the diversion orders made by the various councils contained technical errors, which could have been to the detriment of the public, e.g. where the exact location and width of the new path was not accurately described, which would make any enforcement action by the councils very difficult. In these cases, the orders were withdrawn and new ones made.

The last main aspect of my work during the year was to respond to consultations on applications to the county council for modification orders to be made to put alleged existing PRoW on the definitive map; again PNFS inspectors helped with this. We usually found that we had no relevant evidence concerning the status of the routes, but again when orders were made, I objected to technical errors and these will be considered together with other objections by experts from the Planning Inspectorate.

Other work was representing PNFS at meetings of the Peak District Green Lanes Alliance, which seeks to protect PRoW from inappropriate vehicular use, and helping PNFS members to research the evidence for the existence of "Lost Ways", where public rights will be extinguished in 2026 if they are not legally recognised by that time.

## **Andy Leader (Kirklees)**

Through the C&IO Committee I have been authorised to send some 18 letters before action and subsequent notices where required. I am pleased to say that the process appears to work and does get results.

Some notable successes in Kirklees are the removal of electric security gates from Colne Valley Footpath 80 and Holmfirth Footpaths 60 and 71. Following service of a s56 notice Kirklees have repaired an impassable section of Holmfirth Footpath 57. On all the other Kirklees paths where letters before action and/or notices have been served by the Society, the reported problems have been or are being resolved.

I have also commented on over 40 planning applications affecting public rights of way and have been involved in making representations on two proposed footpath diversions.

## **Jenny Allen**

I am the Courts and Inquiries Officer for Barnsley, Cheshire, Warrington and Lancashire (on an as-required basis). I have also supported Pat Thomas, inspector for Longdendale in Tameside, on the matter of an obstructed footpath, Longdendale FP89. I am taking enforcement action on behalf of PNFS against Tameside HA for failure to clear this obstruction. This matter is ongoing.

I have also assisted Terry Norris in respect of interviewing witnesses for a claim made by PNFS to modify the Definitive Map by adding a footpath in Leigh, Wigan.

I am undertaking a review of policies for the Courts and Inquiries team. This is an ongoing project and will hopefully be completed within the next twelve months.

# Consultation and Orders Report

## Brian Hamilton

There have been a lot of changes in the section this year with the loss of some key personnel.

Firstly, Wally Smith left us as he did not feel he was able to drive any more. He has been a great asset to the Society and was always a great character to have in the office. His cheerful character will be sadly missed, after many years of good service to the Society.

Secondly, we lost Jeff Lomax, who has moved to the south to be with his new wife. We wish him well, and thank him for his long-standing contribution to the Society.

In the autumn Alan Hooley, our section leader, decided to devote his time to his wife, who was taken ill. Although his absence is hopefully temporary, we have now been without his key leadership for several months. We wish him and his family good health for the future.

We now have Reg Boot as a regular attendee at Taylor House in our section. As a long-standing member and previous Membership Secretary he has fitted in very quickly, and has been a great help to myself and John Grimsey, as the remaining regular attendees.

Towards the end of the year, the resignation of John Harker as Area Officer for large areas of Yorkshire and Derbyshire meant that these areas would fall under the control of Taylor House, and the extra work for our section is as yet unknown.

Jenny Allen has become a great asset to the Section by taking much control of Cheshire East and Cheshire West.

I would like to thank the Assessors and Inspectors for the good work, and the Courts and Inquiries Officers for their support.

We have been involved in seven objections during the year, mainly at the consultation stage. Two were withdrawn by us, two by the applicant, and the rest are either still ongoing or have not been progressed.

The statistics for the year are listed below, (previous year's figures in brackets). Due to the reasons listed above, we expect these numbers to be somewhat different next year.

Public Space Protection Orders 6 (8)  
Consultations 145 (123)  
Objections 7 (11)  
Orders 148 (262)  
Others 171 (158)

*Silverdale 14 where a thirty year battle for access is reaching its climax*

### Accounting basis

These accounts have been prepared using the “receipts and payments” method, rather than the “accruals” method as used up to 2006. This is in accordance with Charity Commission guidance and the trustees’ decisions made in 2006.

### Income

- Receipts were down to £82,063. This was due to legacies being down by £64,740 to £40,182 and gift aid down £12,808 to £3,613. This fall was linked to last year’s gift aid associated with the Mike Barnes estate donation.
  - Members’ subscriptions were down slightly to £12,461. Affiliations were down slightly to £1,662. Net gift aid was down £308 to £3,613.
  - General donations were up slightly to £9,460.
  - Signpost/footbridge donations were up 25% to £3,993.
  - Dividends and interest were both higher, up £1,901 to £10,587.
- Taking out legacy income, general income was slightly higher at £41,881. Then, deducting expenditure, a deficit of £3,178 was made in the Society’s running costs.

### Expenditure

- Overall expenditure was up by £6,712 to £45,059, mainly due to an increase in signpost/footbridge expenditure and legal fees.
  - Taylor House costs were down by £865 to £4,501.
  - Signpost/footbridge expenses up £5,956 to £13,115, which is good to see.
  - Travel costs were down slightly to £6,762.
  - Printing and postage costs were higher, mainly due to printing a new Inspectors Handbook. • It now costs nearly £1.50 to print and post a newsletter, so please consider taking it online.
  - Computer and insurance costs were down slightly.
  - Subscriptions/donations/training costs were higher due to a new C.I.O on a training course.
  - Commemorative projects were down appreciably as only a donation towards the PDNP boundary walk plaque was made this year.
  - Legal, professional and secretarial costs were up by £2,540 due to seeking barristers’ advice on the Wigan PROW case. Also the cost of digitising the Cheshire East records
- The net surplus was £37,004.

### Assets

The balance sheet is up £22,738 to £449,691, mainly due to legacies. Our investments were down by £24,597 to £160,344 due to £10,331 of shares being bought out, as well as a fall of £14,266 in the portfolio value due to the 12% fall in the FTSE this year. Fortunately our investments only fell by 7.5%. They are long-term investments and are returning over 5%, an essential contribution to our running costs.

Liquid assets were up £47,335 to £228,693, boosted by the share buyout of £10,331 which has not yet been reinvested.

Direct debits subscriptions: CAF (Charity Aid Foundation Bank) collect our direct debits. Please note you no longer see on your statements and online bank details any mention of PNFS. Instead you see “Charity Donation”. Collection dates are 1st and 15th of the month.

Please think about changing to paying your subscriptions and donations by direct debit, and if you are a tax payer signing up for Gift Aid. Forms are available at <http://www.peakand-northern.org.uk> Direct debits now account for nearly 70% of our paid membership subscription income: £8,723, accounting for 635 members excluding affiliates.

New Charity Commission rules mean that the Independent examiner is not allowed to publish her report before seeing the Annual Report. For that reason we cannot publish it here and it will be issued seperately

## Bob Proctor

On 11th May, our Chairman presented a cheque for a donation of £3,456 to Andy Gardner of Kirklees Council. The donation was for the funding of a new footbridge on footpath DEW/65/10 where it crosses Howroyd Beck near Whitley Lower village. The Council did considerable work on the footpath including installing a field drain, replacing an unsuitable stile with a wicket gate and cleaning accumulated mud and soil off the paved surface of the path.

The bridge was dedicated to the memory of Audrey Oakes, who had left a very generous legacy to the Society.

A donation of £1,130 was also made to the Derbyshire Wildlife Trust to fund additions to the boardwalks in the Chee Dale Nature Reserve near Miller's Dale. The Chairman handed over a cheque to Julia Gow, the Reserves Officer, on 20th November. Wormhill FP5 follows the River Wye upstream from Miller's Dale. It is a popular walk through the wonderful dale, but the path can get exceedingly muddy after wet weather and the Trust decided to extend the boardwalks, making the path more enjoyable and reducing erosion. The Society was approached with a request for support, which was given in accordance with its policy.

I wrote a press release and a short piece appeared in the Buxton Advertiser.

Kirklees Council first contacted the Society in summer 2015 about financial support for the replacement of a bridge on footpath KIR/113/10 near Flockton. Since then some tortuous discussions have been taking place, culminating in a letter to the Council in January 2018, saying that proceedings would have to be taken under s56 of the Highway Act unless some meaningful progress could be made. Following this letter, discussions moved forward relatively quickly, resulting in an offer of £7,790 towards the cost of the new bridge being made in August last. Work has started on the abutments and we are looking forward to hearing that the project has been finished.

Throughout most of the year, negotiations have been continuing with Staffordshire County Council about improvements to two sets of stepping stones on the River Hamps in the Staffordshire Moorlands. The stepping stones are very difficult to use and unsafe and the Society first suggested that they should be replaced with footbridges. A rough estimate of the cost was £16,500. After some slow-moving discussions the Council said that any donation could be better spent on repair or replacement of the stepping stones. This seemed acceptable, subject to the specification and extent of the work being satisfactory. Harry Scott, the Area Officer, has since been dealing with the Council but progress has been painfully slow.

Hebble Hole bridge is a listed stone clapper bridge in Colden Clough, west of Hebden Bridge. The bridge consists essentially of two parallel stone beams, approx. 600x400mm, and 4.7m long. Last winter a falling tree pushed one of the beams off its support, breaking it into two pieces. In view of the bridge being listed it had to be repaired and a replacement bridge was not acceptable.

The bridge is on the Pennine Way, and the Pennine National Trails Partnership asked whether the Society would be interested in making a contribution to the estimated cost of £25,000. The Trustees offered a donation of £5,000. Contractors started work in the autumn of 2018 and the job was approaching completion at the end of the year.

The following proposals are also currently being dealt with: i) a footbridge on footpath 87BUR/5WHI near Bury; ii) a footbridge and boardwalk near Marple; iii) a footbridge on the Pennine Way, north of Marsden.

**David Morton**

2018 began badly. In the first six months just one new signpost 561 was erected at Shireoaks Farm, while three were stolen and two were vandalised. Those stolen were 529 and 535 at Hurst Green, plus 346 at Whittle, New Mills. All three were notified to the police, but have not been recovered. S19 above Kinder Reservoir was uprooted and had its main plate and one cross plate smashed, while S002 at the nearby shooting cabin lost one crossplate. However by December, S19 and S2 had been repaired and we had added 26 new signs giving a total of 512 signs compared with 488 in January. Those with an † are available as memorials to walkers or their clubs at a cost of £325. .

## New signs in 2018

†S561 at GR : SK 07102 83237	Shireoaks Farm, Breckhead, Chinley on FPs 67/70

Six more signpost plates are on order from Leander Architectural. Five are in the outlying parish of Rimington, Lancs. and one at Norber, Rochdale. The Toposcope 3 saga dragged on.

*continued on page 17*

## David Gosling

The principal aim of the Society is to protect and preserve the rights of way network in our region. In order to achieve this aim we need to have accurate and reliable information about the state of rights of way. Although we receive information from a variety of sources, by far the most important source is the inspection of footpaths carried out by the Society's inspectors.

The Footpath Inspections Database (FID) was only introduced two years ago for Derbyshire parishes and now covers all areas where we have inspectors (as reported in February's Signpost). Since the FID was introduced, we have been building a more comprehensive picture of the condition of the footpath network and about the activity of our inspectors.

In 2018, the FID recorded 5174 inspections. The table below shows how the number of inspections has risen over the last five years, although we have to remember that prior to the introduction of the FID, inspectors only reported to Taylor House when they found a fault.

2018	Total inspections	5174
2017	Total inspections	4570
2016	Faults reported	2024
2015	Faults reported	1123
2014	Faults reported	678
2013	Faults reported	381

The table below shows how active our inspectors have been in those HAs where more than 100 inspections were recorded during 2018:

<b>Highway Authority</b>		<b>Highway Authority</b>	
Cheshire East	773	Cheshire West	243
Derbyshire - High Peak	742	Sheffield	234
Derbyshire - Derbyshire Dales	699	Lancashire - Lancaster	233
Staffordshire	473	Kirklees	136
Stockport	442	Bolton	111
Derbyshire - Amber Valley	412	Lancashire - Ribble Valley	105
Derbyshire - NE Derbyshire	384	Trafford	104
Barnsley	247	Derbyshire - S Derbyshire	101

The number of faults recorded in 2018 was 2009 faults, of which only 17% were resolved, leaving 1659 faults unresolved. There is currently a total of 5818 unresolved faults on the system, many of which relate to faults recorded some years ago. The financial cutbacks to local authorities' budgets have resulted in longer delays to faults being rectified and many stay on the books for several years, but the Society remains committed to pressing highway authorities to meet their legal obligations to maintain rights of way.

It is very pleasing to be able to report that footpath inspection is going from strength to strength. The Society appointed 12 new inspectors in 2018, so we now have 112 inspectors and 9 area officers (five of whom are also inspectors). 522 parishes are currently inspected, a considerable improvement on the 330 parishes inspected five years ago. We particularly welcome new inspectors in areas where we have not been represented, such as Patrica Durdey in Bradford and Peter Varetto in Bury.

However, we did lose some very experienced inspectors and a special mention should be made of Keith Feltham, who retired in August after 30 years of service to the Society. Also retiring during the year were: Kirsty Tyre, Richard Hinckley, Graham Redford, Terry Woodhouse, Roy Chetham, and John Glentworth. We thank them for their services to the Society.

Recently, Pat Thomas has also announced her resignation. Pat has been an energetic inspector since 2003, first in Charlesworth and Chisworth and latterly in several parishes in Tameside. She has fought many battles with Tameside and attended numerous meetings. Her patience has finally been exhausted and she has resigned Longendale, her remaining parish. The Society owes Pat a huge debt of gratitude.

During the year three inspectors newsletters were published and also a new booklet 'An Introduction to Inspecting Footpaths for PNFS'. Eleven new inspectors attended a training day on February 24th. An inspectors conference was held on March 24th at the Methodist Central Meeting Rooms, attended by 34 inspectors. Despite competition from the hymns being sung next door, there was a lively debate about the constitution change that was subsequently passed at the AGM.

In an attempt to make the PNFS archives at Taylor House more accessible, we embarked on a pilot project to digitise the records for one highway authority (Cheshire East). This coming year we will be extending digitisation to more HAs and will also include current documentation. The plan is to make these digital records available via a password-protected area of the website.

Overall, footpath inspection is in a healthy state, but the local authority environment is extremely challenging. There are encouraging signs that the benefits of walking for health are being recognised but this is not yet being translated into improved budgets for rights of way officers. Most highway authority funding is devoted to the road network and not to maintaining paths and bridleways.

---

## Signposts (*continued*)

### Maintenance

The usual programme of inspecting every signpost within three years, plus cleaning, wedging and repainting the coloured "crest" continued.

S019 and a cross plate on S002 were replaced following serious vandalism. S086, 106 and 107 were shotblasted and powder-coated. S086 and 212 were fixed to concrete stumps. S106 was set back from the A57's road salt.

Mike Hoare was commemorated on S559 at Butley Town; Brian Morrison on S436 at Common Barn; Derek Seddon on S105 and 557.

S276 was re-erected by S&RWLT on a full-height post at Blacka, Sheffield. Pete Ash repainted S010, 068, 251, 288 and 388 in spite of weather extremes. S360 was retrieved from Anglers Country Park, Wakefield, when its post rotted. The RA's sign at White Coppice, Chorley was re-posted. TH garage door stay was repaired. My particular thanks again go to Pete, Ted and John.

# Membership Secretary's Report

## Mel Bale

The Society's membership figures have fallen slightly over the last year. However, it is worth pointing out that as I write the number of members and affiliates who have yet to renew their membership is higher than at this time last year and the membership year still has three months to run. I am hopeful that the 'end of year' figures will at least be on a par with those of 2017/18. The figures for the last five years show that membership is relatively stable.

The Society's demographics mean that it is inevitable that we will lose members through illness or worse. Sadly this has certainly been the case this year. On a more positive note, it is very encouraging that a number of our new members have also become footpath inspectors and have offered to volunteer in other ways to progress the work of the society. We have also lost three of our vice presidents for a range of reasons. The good news is that Ian MacMillan, sometimes referred to as the Bard of Barnsley, and Kate Ashbrook of the Open Spaces Society and the Ramblers have both agreed to take up these roles, subject to approval at the forthcoming AGM in April.

The Society is always keen to help other organisations with footpath-related issues. One example from 2018 was Dore Village Society, who sought our advice about a potential unrecorded right of way in their village. They were so impressed by the help that one of our area officers, John Harker, was able to provide that they decided to affiliate to the Society. Hopefully we can attract more groups in this way in the future.

Please don't forget that your subscriptions are vital to the work of the Society in protecting and promoting our public rights of way. If you don't already Gift Aid your subscription and are a UK tax payer, please just sign the appropriate section on your next renewal form. By doing so you effectively increase the value of your subscription by 25%. Gift Aid can be claimed retrospectively for four years, so if you can Gift Aid please consider doing so.

I am delighted to be able to report that the treasurer has advised me that for the eighth successive year subscription levels will be frozen. Considering the steady rise in the running costs of the society this is indeed good news.

In future membership renewal reminder letters will be sent with the first newsletter of the membership year. I would ask all members to consider paying their subscription by direct debit if they do not already do so. Not only does this reduce the need for reminders but it also allows more time to be spent on other work for the Society. Work is underway to enable membership renewals to be made via the society's website as well as allowing new memberships to be taken out.

The trustees are very keen to broaden the age range of our membership. One way simple way to do this is for members to encourage their children and friends to join the Society. Don't forget we are more than happy to accept gift memberships on their behalf!

The Society also has plans to recruit members from colleges and universities across our patch as well encouraging more parish councils and other organisations to affiliate to us.

Last year I mentioned a new benefit for members: access to the Society's Footpath Inspection Database. The database now covers virtually all of the highway authorities that the Society deals with. Authorised users can view the latest inspection information about footpaths across all the parishes that our inspectors cover, as well as all reports of problems that have been reported. Please contact me at the email address below if you would like access to the database. I'd like to thank my fellow trustees for all their support and encouragement throughout the year and in particular, Paul Easthope, our treasurer, who yet again has been a great help when dealing with the financial aspects of membership.

Finally, please do contact me at [membership@pnfs.org.uk](mailto:membership@pnfs.org.uk) if you have any questions or ideas about membership.

Members	2014	2015	2016	2017	2018
Annual	923	968	994	1073	1070
Ten year	147	189	67	50	39
Five year	48	10	7	4	2
Hon. life	31	32	33	34	32
Total	1149	1067	1101	1161	1152
Affiliates	77	76	79	89	85

Note: The 2018 figures are for 'paid up' members only. In addition there are 56 individual and household members and 7 affiliates who haven't yet renewed in 2018/19. All have recently been sent renewal reminder letters or emails.

## Honorary Members

The President and Vice-Presidents are elected in recognition of outstanding services to the Society and they enjoy all the benefits of honorary membership.

Members of 20 or more years standing who are aged at least 65 are entitled, on application, to honorary life membership.
